

Current Offering-PERS Anywhere

1. FreeRoam™ Technology- the ability to use the LifeBeacon™ wherever you are and wherever you go*
2. Two Way Voice- talk and listen to medical monitoring operators directly from your LifeBeacon™
3. InstaLink- press the button and summon help in seconds, not minutes**
4. GPS- LifeBeacon™ communicates with satellites to locate you in an emergency and then informs responders of your location
5. InstAlert- LifeBeacon™ notifies loved ones immediately of your need for help along with a map link of your location
6. Extended Battery Life- LifeBeacon™ will last up to 3 days before needing to be recharged***
7. Convenient Recharging- set LifeBeacon™ in the included and simple cradle charger when it is time to recharge
8. Audible Notifications- LifeBeacon™ will let you know when you've activated it, when to recharge it and more
9. Practicality- The LifeBeacon™ is lightweight yet rugged, and can be worn as a wristwatch or a pendant
10. Simplicity- Set up is easy. When you press a button, LifeBeacon™ does the rest
11. Secure Connectivity-LifeBeacon™ is constantly and securely connected to the internet
12. Cost- for around the same price and terms as traditional PERS, get the much better LifeBeacon™

*Requires adequate cellular telephone signal

** Average connection time is 28 seconds vs traditional PERS at over a minute

***Battery life fluctuates depending on how often the emergency button is pressed. In average non-emergency situations it lasts around 36 hours
